

iCAN AFTER SCHOOL STEAM ENRICHMENTS

AT ST. GREGORY CATHOLIC SCHOOL

Our STEAM programs ignite curiosity through engaging, hands-on activities. Students meet weekly and explore rotating curricula filled with exciting new projects—many of which they get to take home. Select classes conclude with a special showcase where families are invited to celebrate students' work

CLASS DESCRIPTIONS

Subject	Grades	Days	Start	End	Time	# Classes	No Class Dates	Before 12/31	After 12/31
Science Jr.	PK4-K	Tue	1/6	3/10	3:30-4:30	10		\$280	\$308
Lego Robotics	1st-5th	Wed	1/7	3/11	3:30-4:30	10		\$280	\$308
Jewelry	1st-5th	Thu	1/8	3/12	3:30-4:30	10		\$280	\$308
Aviation	K-5th	Thu	1/8	3/12	3:30-4:30	10		\$280	\$308

CLASS DESCRIPTIONS

Science Jr. (PK4–K): A playful introduction to science designed for curious little ones! Children explore hands-on experiments tailored to their developmental level, nurturing early interest in how the world works.

LEGO® Robotics (1st–5th): Young engineers dive into LEGO® SPIKE™ Essential challenges to explore real STEAM concepts through building, coding, and storytelling. Kids work together to solve problems, program creations, and bring their ideas to life in this fun, future-ready robotics class.

Jewelry Design (1st–5th): Students learn to design and craft beautiful necklaces, bracelets, and earrings using real jewelry-making techniques. This class boosts fine motor skills and creativity—and ends with a dazzling jewelry show to display their sparkling creations.

Aviation (K–5th): Watch your child's curiosity take flight! In this hands-on STEM adventure, students learn real aviation and flight science while building and flying their own high-soaring models. Along the way, they'll strengthen woodworking, math, science, and engineering skills—all through exciting, sky-high fun.
