

Back To School THE CLINIC CORNER

AUGUST 2026

Clinic Business

Immunizations

Please continue sending updated student vaccinations to the clinic. Forms can be dropped off physically to the main office or sent to the **Clinic Contacts** attached to this newsletter. Please maintain all medical exemptions updated.

Prescription Authorization Forms

If you would like your child to receive a prescribed medication in the clinic, please fill out a medical authorization form and have child's primary doctor sign the form.

Each year, every student **needs a new** form filled out. For over-the-counter medications, only the parent of the student needs to sign.

On the Radar

Please keep students at home if they are experiencing flu-like symptoms. Best practice is to send student back to school if symptom free for over 24 hours without the use of medications (i.e. Tylenol, Motrin, etc.) and/or fever free (preferably, less than 100.3 Farenheit).

PLEASE STAY TUNED FOR OUR CLINIC WISHLIST. THIS WILL BE A NEW INNOVATION TO HELP OBTAIN A FEW ITEMS FOR THE CLINIC TO BENEFIT OUR STUDENTS AND IMPROVEWORKFLOW.

Clinic Highlights

Please make sure medical information regarding medical issues and/or allergies are current and accurate on Powerschool.

If a student has an allergy requiring an EpiPen, please make sure to provide one to the clinic. No expired EpiPens.
